Please find below and/or attached an Office communication concerning this application or proceeding.

DETAILED ACTION

This is in reference to response received 06 February 2006 to the office action mailed 17 November 2005.

In the response received applicant has argued that cited references Allersso and Weinstock does not teach the claimed limitation "introducing tenants to each other". However, in the disclosure originally filed 05 December 2001, applicant has not provided adequate information to enable one of ordinary to understand how the applicant introduces a tenants to other tenants which the applicant claims as their invention. Also, in view of claims 1, 8, 14 and 20, it is not clear whether the tenant is provided space in a physical structure or on a web server; is gathering of information is on a server that part of the electronic system upon which a tenant is given space, or, tenants are given space on a physical property like a building, and, information is gathered on an electronic system which provides access to tenants of the property to communicate with each other.

To further the prosecution of this application and enable the examiner to properly respond to applicant's argument, please clarify how the examiner should interpret the limitation on where the tenant is provided the space because the claimed limitation of introduction of a tenant in a physical space may require different means and method than introduction of a tenant in a web server, and, gathering of information about the tenants. Also, please provide the information on how one of ordinary skill in the art can

Art Unit: 3629

use applicant's invention and introduce a tenant to other tenants. Please indicate where the support for the claimed limitations can be found in the specification.

Applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Naresh Vig whose telephone number is (571) 272-6810. The examiner can normally be reached on M-F 7:30 - 6:00 (Wednesday off).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John Weiss can be reached on (571) 272-6812. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
